# Pewaukee Skill Enhancement Classes

---

## **Acoustical Ceilings**

32 hour course. This course will expose students to metal ceilings, open grid systems, grid soffit framing, and the latest installation techniques.

Codes, standards and regulating bodies are identified, as are the proper installation methods for exposed and concealed grid ceilings.

**2019 course offered:** May 7, 9, 14, 16, 21, 23, 28,

## **American Red Cross CPR/First Aid/AED**

8 hour course. This course provides First Aid/CPR/AED certification

Prerequisite: None

Expiration: 2 years

**2019 course offered:** Jan 12 & Apr 6

## **Building Hardware I**

28 hour course. This course will allow the student to become familiar with basic architectural hardware, including installation techniques, routine maintenance and ADA requirements of the various types of commercial hardware normally found on the project. Included will be locksets, latch sets, keying and door closers

**2019 course offered:** Apr 2, 4, 9, 11, 16-18

## **Concrete Decks**

12 hour course. This class will introduce multiple concrete deck forming systems along with safe and productive methods of erecting and dismantling them.

**2019 course offered:** Feb 11-13

## **Construction Fall Protection**

8 hour course. This course covers how to recognize and properly address fall hazards in our industry. Hands on exposure to equipment used in fall protection.

Prerequisite: None

Expiration: None

**2019 course offered:** Jan 23-24

## **Aerial Lift**

8 hour course. This course covers scissor and boom lift qualifications, classroom and hands on instruction.

Prerequisite: None

Expiration: None

**2019 course offered:** Jan 15 & 17

## **Blueprint Reading-Basic**

24 hour course. This class includes residential & light commercial types of plans, specifications, abbreviations & symbols. Specific building materials & trade coordination, reflecting current materials & code standards based on actual jobs will be presented. Prerequisite: None

**2019 course offered:** Apr 9, 11, 16, 18, 23, 25

## **Building Hardware II**

28 hour course. This course is designed for the student that has previous architectural hardware experience. Fire, health & safety codes will be discussed as to how they relate to architectural hardware & their use in a building. Panic devices, specialty locks, coordinator, closers & other hardware will be discussed & installed according to the manufacturer's recommendations.

**2019 course offered:** Mar 5, 7, 12, 14, 19-21

## **Concrete Walls**

12 hour course. This class will introduce multiple concrete wall forming systems along with safe and productive methods of erecting and dismantling them.

**2019 course offered:** Jan 28-30

## **Doors**

24 hour course. This class will discuss door hanging theory including Code requirements and manufacturer's instructions. Students will then learn how to hang and adjust doors with emphasis on commercial, industrial and institutional applications. Correct power and hand tool usage and safety will be stressed. Both wood and metal jambs will be set. Students will become familiar with and practice with power planes and hinge

**2019 course offered:** Feb 12, 14, 19, 21, 26, 28

# Pewaukee Skill Enhancement Classes

## **Acoustical Ceilings**

32 hour course. This course will expose students to metal ceilings, open grid systems, grid soffit framing, and the latest installation techniques.

Codes, standards and regulating bodies are identified, as are the proper installation methods for exposed and concealed grid ceilings.

**2019 course offered:** May 7, 9, 14, 16, 21, 23, 28,

## **Firestop Qualification:**

8 hour course. Installation of firestop materials at head of wall and through wall penetrations.

**Expiration: 4 years**

## **ICRA Best Practice in Health Care Construction**

24 hour course. This course covers infection control risk assessment, health care awareness protocol and how to minimize risk in health care facilities. Practical application of these protocols.

Prerequisite: None

Expiration: 4 years

**2019 course offered:** Jan 22-24, 29-31, Apr 23, 25, 30, May 2, 4

## **INSTALL-Carpet Cert**

11 hour course. Contact the Training Center Office for Further Information \*\*Pretest required prior to Certification testing\*\*

The Carpet Certification Testing includes a written assessment that covers the knowledge of Substrates, Adhesives, Fillers, Moisture, and Layout/Planning. Fitting, Bonding, Seaming and Product. Successful completion of the written assessment will be followed by a hands-on evaluation of the Installer's proficiency in the following areas: Adhesive Application, Seaming, Fitting, Tack strip, Cushion Installation, Stretching, Borders, Upholstered Steps and professionalism. Certification is valid for 4 years.

**2019 course offered:** May 7-9

## **Aerial Lift**

8 hour course. This course covers scissor and boom lift qualifications, classroom and hands on instruction.

Prerequisite: None

Expiration: None

**2019 course offered:** Jan 15 & 17

## **Flash Cove Basics**

12 hour course. his class is designed to teach the floor coverer sheet goods, welded seam and flash cove installation procedures. Sheet vinyl installation experience is required for enrollment into this class

**2019 course offered:** Apr 23-25

## **ICRA Best Practice in Health Care Construction**

### **Refresher**

8 hour course. This course refreshes/ reviews the 24 hour ICRA course.

Prerequisite: ICRA Best Practice in Health Care Construction

Expiration: 4 years

**2019 course offered:** Jan 26

## **INSTALL-Resilient Cert**

11 hour course. Contact the Training Center Office for Further Information \*\*Pretest required prior to Certification testing\*\*

The Resilient Certification Testing includes a written assessment that covers knowledge of substrate, adhesives, moisture, layout, fitting, bonding, seams and product. Successful completion of the written assessment is followed by a hands-on portion that will demonstrate the installer's proficiency in the following areas: Layout, Adhesive Application, Fitting, Cove Base Installation, Seaming, Welding, Templating, Scribing and Professionalism. Certification is valid for 4 years.

**2019 course offered:** Mar 5-7

# Pewaukee Skill Enhancement Classes

## **Acoustical Ceilings**

32 hour course. This course will expose students to metal ceilings, open grid systems, grid soffit framing, and the latest installation techniques.

Codes, standards and regulating bodies are identified, as are the proper installation methods for exposed and concealed grid ceilings.

**2019 course offered:** May 7, 9, 14, 16, 21, 23, 28,

## **INSTALL-Substrate Prep**

11 hour course. This course includes exploration of negative effects of moisture on concrete, methods to control moisture content, and the proper remediation steps.

**2019 course offered:** Feb 19-21

## **Math for the Trades**

8 hour course. This course covers basic math, decimals, fractions, conversion area and volume.

Prerequisite: None

Expiration: None

**2019 course offered:** upon request

## **PITO Industrial and Rough Terrain**

16 hour course. theory & hands-on instruction meeting OSHA's basic training requirements in warehouse and rough terrain forklift operation will be provided. Note that additional training specific

**2019 course offered:** Jan 7-10

## **Rigging**

40 hour course. This course covers rules and regulations related to safe rigging practices; classroom and hands on. Rigging certification

Prerequisite: None

Expiration: 4 years

**2019 course offered:** Mar 18-20, 25-28, 30, Apr 6 - written test 3/28

## **Scaffold 40**

40 hour course. This course covers the basic concepts to build an OSHA compliant scaffold

Prerequisite: None

Expiration: 4 years

**2019 course offered:** upon request

## **Aerial Lift**

8 hour course. This course covers scissor and boom lift qualifications, classroom and hands on instruction.

Prerequisite: None

Expiration: None

**2019 course offered:** Jan 15 & 17

## **Interior Trim**

24 hour course. This course includes types of trim & their purposes; installation tools, both hand & power; safety; cutting & installation of various trim members including base, shoe, casing, chair rail, crown, multiple member trims in various geometric configurations, using both mitered &

**2019 course offered:** Apr 9, 11, 16, 18, 23, 25

## **OSHA 30**

30 hour course. This course covers amore in depth examination of OSHA standards, rights and responsibilities of employer and employee

Prerequisite: None

Expiration: None

**2019 course offered:** Mar 5, 7, 9, 12, 14, 16

## **PRO 10**

10 hour course. Professionalism, communication, diversity, Union history, safety, and "Big Picture".

**2019 course offered:** upon request

## **Rigging Refresher**

16 hour course. This course refreshes/reviews 40 hour Rigging Course

Prerequisite: Rigging 40 hr.

Expiration: 4 years

**2019 course offered:** Mar 4-6 - written test 3/28

## **Scaffold 40 Refresher**

8 hour course. This course refreshes/reviews scaffold 40 hour class

Prerequisite: Scaffold 40

Expiration: 4 years

**2019 course offered:** upon request

---

## **Acoustical Ceilings**

32 hour course. This course will expose students to metal ceilings, open grid systems, grid soffit framing, and the latest installation techniques.

Codes, standards and regulating bodies are identified, as are the proper installation methods for exposed and concealed grid ceilings.

**2019 course offered:** May 7, 9, 14, 16, 21, 23, 28,

## **Sheet Vinyl**

12 hour course. This class is intended to teach the basic installation of sheet vinyl, including proper floor prep, underlayment and adhesives for pattern goods and non-pattern goods.

**2019 course offered:** Apr 9-11

## **Stair Layout & Construction**

32 hour course. This class covers formulas used to calculate unit rise & unit run to conform to residential & commercial code requirements.

Total rise, total run, & "Treads & Risers in the Open" will be discussed to calculate stairs in

**2019 course offered:** Jan 8, 10, 15, 17, 22, 24, 29, 31

## **Stretch Carpet**

12 hour course. Course basics include types of carpet & their installation requirements.

Specialized tools, safety, installation of anchoring materials, types of padding and usage, pad and carpet layout, proper seaming techniques, proper use of kicker and power stretcher trimming and

**2019 course offered:** May 7-9

## **STP 4**

24 hour course. This course will provide information about contract documents and construction law to help supervisors recognize the roles and responsibilities of all contracted parties, to develop an understanding of how contract documents can be helpful to solve problems and

**2019 course offered:** Mar 12, 14, 19, 21, 26, 28

## **Total Station I**

24 hour course. This course will introduce the carpenter to Total Station technology and equipment. Included are terminology, equipment setup and introduction to coordinate geometry.

Building layout (stakeout) is achieved using X, Y,

**2019 course offered:** upon request

## **Aerial Lift**

8 hour course. This course covers scissor and boom lift qualifications, classroom and hands on instruction.

Prerequisite: None

Expiration: None

**2019 course offered:** Jan 15 & 17

## **Silica Awareness**

2 hours course. This course covers understanding the hazards of silica, with an overview of OSHA Construction silica final rule.

**2019 course offered:** upon request

## **Stepping Up to Foreman**

8 hour course. This course uses the UBC Stepping up to Foreman book, covers job site issues, organization, preparation and the "big picture" viewpoint of a job.

Prerequisite: None

**2019 course offered:** upon request

## **STP 3**

24 hour course. This course will help construction supervisors understand ways in which planning and scheduling saves time and money, while increasing quality in the construction process.

**2019 course offered:** Feb 5, 7, 12, 14, 19, 21

## **Solid Surface**

16 hour course. Contractor Request Only. This course covers epoxy, joining solid surfaces and proper surface finishing.

Expiration: 4 years

**2019 course offered:** upon request

## **Total Station II**

Many of the finer points of managing the layout tasks on a project are incorporated into this class. More time is included for computer interaction to expedite the conversion and transfer of the point

numbers to the data collector which to create

**2019 course offered:** Jan 2, 7-9, 14-15
